ON THE COVER

Children inspire many of us, including the students at TMC. Art student Tess Dansberry used that inspiration to create "Play Ball," which was displayed during the 2012 Senior Show in the Eva G. Farris Art Gallery.

Moreover Readers Share How They Accomplish Their Goals

Congratulations to Pete Manczyk '82 who won a \$25 gift card to Josepth-Beth Booksellers and a copy of Steven R. Covey's *The 7 Habits of Highly Effective People* for his entry of how he sets a goal. Thanks to all readers

who responded. Here's how Pete accomplishes his goal

SETTING

To see how other alumni accomplish their goals, visit thomasmore.edu/MORE.

THE THABITS OF

Before one can have a GOAL, first, he or she must have a DREAM! A goal is a dream with a date on it. Dreams are written in stone, while goals are written in sand. As children, we were allowed to dream BIG! Somewhere along the line, many of us decided to "grow up" and stop dreaming. Very bad! The key is to surround ourselves with like-minded, positive people who encourage us to go after our dreams instead of tearing us down. Find mentors (not necessarily our best friends) who will walk with us, encourage us and correct us when necessary when we stray off the path to our dreams. Building relationships is everything in today's world. A lone wolf sometimes hits its goals, but, after all is said and done, the wolf is still lonely. Finally, to achieve goals, one must perform ACTION! Don't let fear or someone else's opinion stop action from occurring. Believe in what is possible, not what is likely. Success is shy...it will not knock on your front door! Go after it!

Pete Manczyk '82

Three easy steps

I follow three steps when setting a goal:

- 1. I get into a proactive mind-set. It's not going to happen unless I go for it.
- 2. I try my very best.
- 3. When I've done all I can do, I push it out of my mind and focus on the next task.

Michael Supe '09

Leverage that TMC degree!

Because of Thomas More College and the Psychology Department in the late '60s early '70s, I began a path of uncertainty and became a confident and successful career graduate in public education ..."

Read more about how 1972 alumnus Ivan S. Bennett's experience at Thomas More College propelled him to achieve ambitious goals at **thomasmore.edu/MORE**.

Also, read how Drs. John G. Richardson '65 and Marilyn (Meyer) Richardson '61 utilized their TMC degrees to accomplish goals.

Olympic size effort

Emmy Kaiser 'II, who was previously featured in the spring 2012 issue of Moreover, achieved her goal of making the U.S. Paralympic Wheelchair Tennis Team and will compete for a medal in London this fall against 21 other female wheelchair tennis players. Way to go Emmy!

Dr. Jeanne-Marie Tapke '91, Leadership Expert, Role Model and TMC Board of Trustees Chairperson Shares Her Thoughts on Goal-Setting and Leadership with Psi Chi International Honor Society

n. |eanne-Marie Tapke, chairperson of the Board of Trustees of Thomas More College, was the keynote speaker for the Psi Chi International Honor Society induction ceremony on April I in Steigerwald Hall. She spoke to approximately 70 parents, student inductees and faculty about key

How Does Kathy Beechem '73 Establish Priorities?

Beechem

athy Beechem '73, has quite a bit of experience setting goals. As an active community volunteer and retired executive vice president for US Bank, she has made a significant impact on the region, including co-founding the United Way of Greater Cincinnati's Women's Leadership Council

and also creating, with her husband, Pete Nadherny, the YWCA's Rising Star Board Leadership program. Kathy was a 2010 honoree for The Enquirer's Women of the Year, and most recently was honored by the YWCA of Greater Cincinnati as a Career Woman of Achievement. In addition, she was among the featured speakers (alongside fellow TMC alumna D. Lynn

Kathy's life, while full of accomplishments, isn't short on challenges either, the most significant of which was Pete's battle with brain cancer. After his death in 2008, she couldn't find a grief support group, so she started one at Crossroads Community Church in Oakley, Ohio. Subsequently, she wrote a book, So Far So Good, which describes her experience caring for a terminally ill loved one. She currently chairs the advisory board of the Brain Tumor Center at the University of Cincinnati Neuroscience Institute and serves as the director of the spiritual growth program at Crossroads Community Church.

Meyers '77) at TMC's Distinguished Alumnae

League's Leadership Forum this spring.

Kathy referenced the third chapter of The 7 Habits of Highly Effective People written by Steven R. Covey as an example of how she sets goals. "I've streamlined the process for my own use. Every Sunday night I plan my week. The key is to only plan what Covey calls 'Quadrant 2' -

to naturally.

important, but not urgent things." Kathy

emphasized that this is not a "to-do list." She referenced Covey's theory that the things that are urgent and important (which fall into Quadrant I) you don't have to plan for - you will respond

"Quadrant 3 is other people's urgent things - ones that aren't important to you. 'Important' is what flows from YOUR mission and roles. If you live in Quadrant 3, you will spend your life responding to other people's

priorities, which can keep you very busy, but not moving forward toward things that are the most valuable to you in terms of your mission/roles," she explained.

Covey's principle that Kathy follows is that as Quadrant 2 gets larger in your life and you begin to invest more of your time in things that are important to you, all the other quadrants will decrease - that is, get less of your time. "This was very freeing for me. I only plan for what is important and not what is urgent. I do that by asking one question for each role each week, 'What is the one thing I can do in this role (parent, wife, etc...) that can have the greatest positive impact this week?' The list can consist of just one or two things in each role. That feels more doable, and you'll end up doing the things that are most important to you," she added.

success factors in leadership, how one becomes a leader and the role of self-knowledge in the leadership experience. She emphasized that leaders in any setting need to seek input and build consensus in setting goals and how important this is to morale and motivation in a workplace. She shared some of her own experiences in leadership positions and the importance of maintaining a sense of humor and perspective in an

executive role.

leanne-Marie has been a vice president with primary responsibility for human resource management at a national management consulting firm and for a large healthcare organization that included five acute care hospitals, four long term hospitals and more than 8,000 employees. She is currently the founder and principal of Tapke Leadership Solutions, a private consulting firm that works with businesses and organizations to develop and retain effective leaders, enhance performance and job satisfaction and manage change. In addition to the Board of Trustees at TMC, she has also held major leadership roles on the boards of several non-profit organizations including Catholic Social Services, the Women's Crisis Center and St. Elizabeth Healthcare Foundation.

TMC Psychology Professor, Dr. Maria McLean, Offers Her Advice on Goal-Setting ...

"In the field of psychology, goal-setting is seen as a major motivational strategy. Having goals helps to energize us and to direct our energies. When we talk

about goal-setting in my motivation course, we also give attention to what are called goal-congruent and goal-incongruent emotions and the effects they can have on our attainment of goals. Goal-congruent emotions include optimism, hope and anticipation of success, and those feelings predispose us to action so that we work toward achieving our goals. Goal-incongruent emotions include anxiety and ego-threat and ambivalence, and these feelings predispose us to vacillate about or avoid working to achieve goals.

I distinguish between immediate (short-term) and long-term goals. With immediate goals, I compartmentalize (home vs. office, courses vs. projects, etc.), prioritize in each compartment (what needs to be done NOW; what are the consequences of NOT completing this task) and assess (what resources do I need to achieve this goal). If I am not looking forward to working on some component of a goal, I tackle that first, in the morning, when I am at my best, and if possible after a really enjoyable breakfast. :-)"

Relay for Life

TMC Raises More than \$10,000 for Relay for Life

Thomas More College hosted the American Cancer Society Relay for Life April 13-14, 2012 with teams raising more than \$10,000. This inspiring overnight event celebrated those who have had cancer, remembered loved ones lost and provided an opportunity to rally against the disease.

STEM Academy Works Toward Goal of Engaging Area High **School Students**

SUBMITTED BY BIOLOGY FIELD STATION DIRECTOR AND PROFESSOR CHRIS LORENTZ, Ph.D.

COLLEGE

STEM INITIATIVES

Thomas More College recently completed the second annual STEM Academy for high school teachers. This week-long workshop provided teachers with a variety of hands-on lessons in the

life and physical sciences, as well as sessions covering core content standards, pedagogy and instructional technology. Twenty teachers from

Bellevue, Bishop Brossart, Dayton, Holy Cross, Lloyd Memorial, Ludlow, Newport and Newport Central Catholic participated in the program. The Academy is part of a comprehensive three-year program titled TSI (Thomas More STEM Initiatives), which is funded by the Toyota USA Foundation.

The primary goal of TSI is to improve STEM (science, technology, engineering and math) education at the high school level by: offering high-quality experiences for both teachers and

students, integrating more technology into OMAS MORE their classrooms and engaging more high school students with the STEM and education

> majors in college. A particular emphasis is on the recruitment and retention of more women, minorities and those from lower socioeconomic backgrounds into the STEM disciplines. As part of the program, students from participating schools attend a week-long STEM camp in July.

Habitat for Humanity

Students Spend Spring Break Helping Others

TMC students from a variety of disciplines participated in the 2012 Habitat for Humanity spring break trip, during which they worked alongside Assistant Professor of Business Administration Richard Shuey '96, Associate Professor of Biology John Hageman '83 and Assistant Professor of Nursing Carolyn Kallmeyer. Shuey commented on the yearly tradition, "Thomas More College has been involved in the challenge of Habitat for Humanity since 1995. Since that time, approximately 425 students, faculty and staff have participated. The purpose of the trip is to provide service to our fellow man, develop a sense of camaraderie between all majors at TMC and learn from the experience."

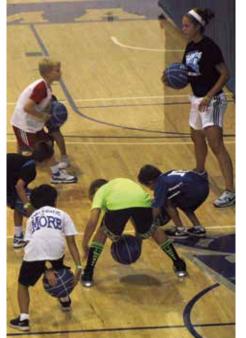

Service, camaraderie and learning motivate those participating in Habitat for Humanity's spring-time event.

Summer Youth Camps a **Smashing Success**

This summer, TMC invited area youth to enhance their skills in a variety of disciplines. Summer camp offerings included sports, theatre, literature, science and technology, and general health.

For more photos and information, visit thomasmore.edu/MORE.

It's all about the FUNdamentals for these children, who participated in TMC sports camps.

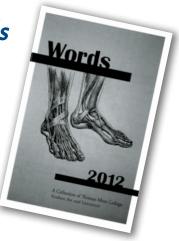

An Excerpt from Words

"Exit Door" by Courtney Smalley Won the Kate Bilbo Aspiring Writer Award

On the day that Emily turned fifteen, she and her parents flew to the U.S. Virgin Islands. In honor of her birthday (and because her father's legs were so long) her mother had purchased them seats in the exit row of the plane. Emily had always been fascinated by exit rows, probably because they held potential for grand heroics, but since safety laws state that you must be at least fifteen years of age to be entrusted with the sort of responsibility that an exit row entails, she had never gotten to sit in one. Today was a big day for her. ...

Suddenly Emily had a strange thought: What would happen if she opened the exit door right now? ...

Outdoor Student Sculpture Complements Sculpting Spaces

Madonna's Meadow Showcases Student Artwork

In May, Madonna's Meadow welcomed the installation of outdoor sculptures created by Adjunct Art Instructor Kirk Mayhew's students who designed pieces to complement the first phase of Sculpting Spaces, a project that offers students the opportunity to learn about both art and science within the landscapes of Thomas More College.

Monday, October I through Saturday, November 3, local photojournalists from *The Enquirer* will be exhibiting photographs from *The Enquirer*'s archives at the Eva G. Farris Art Gallery at Thomas More College. On display will be historical Ohio River events, as well as scenes of life on the river from the last century. The Gallery will host several lectures by exhibiting photojournalists, as well as local storytellers and historians. An array of academic activities and projects is being designed in tandem with the river-based theme. English, art and biology departments will participate. Additional activities and events are in development to celebrate TMC's involvement in this historic inaugural FOTOFOCUS*

Saturday, October 6, 3-4 p.m. Cliff Radel, *Enquirer* columnist and resident Ohio River historian, will speak on Cincinnati's love-hate relationship with the Ohio, the river that gave birth to the Queen City. The show's opening reception directly follows from 4-7 p.m.

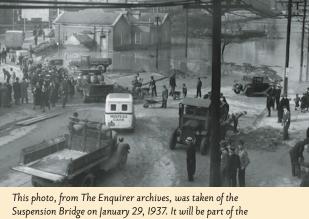

Mon.-Thurs. 8 a.m.-I0 p.m., Fri. 8 a.m.-4:30 p.m., Sat. I0 a.m.-4 p.m., Sun. 2 p.m.-8 p.m.

The Eva G. Farris Art Gallery is located on the entrance level of the Thomas More College Library. For more information, call 859-344-3300 or email the gallery director at Elizabeth.Neal@thomasmore.edu. Please visit thomasmore.edu for up-to-date schedules and events, and visit FotofocusCincinnati.org for a full calendar of local photography events.

*FOTOFOCUS is a nonprofit arts organization, which champions the ubiquity of photography and its important role in contemporary culture.

Why I Give to TMC...

Daniel J. Hiltz '71, Ph.D.

I support Thomas More College as a way to thank those whose sacrifices, support and dedication made it possible for me to receive an outstanding Thomas More education over 40 years ago. We all stand on the shoulders of giants who built great institutions of higher learning before we were born. I could never hope to have the impact of the Benedictine

Sisters of St. Walburg, who founded the College, or Msgr. Murphy who provided outstanding leadership for so many years, but perhaps I can make a small impact on the life of deserving Thomas More students today and tomorrow. "

- Dan Hiltz, Ph.D. '71

LEGACY SOCIETY-

The Legacy Society of Thomas More College was established to recognize those individuals who provide for the sustainability and future growth of the College through their generous donation of a planned gift. Since formalizing a planned giving program in June 2010, 44 individuals/couples have communicated their intent to include Thomas More College in their will or estate plan. Examples of planned gifts include:

Bequest Through a Will • Life Insurance Beneficiary Designation • Retirement Plan Beneficiary Designation Charitable Gift Annuity • Charitable Trust • Gifts of Appreciated Assets

All donors considering a planned gift to the College are encouraged to consult with their legal and tax advisors concerning their specific gift. To explore the opportunity of a planned gift or to notify the College of your intent, contact Tim Rawe at 859-344-3320 or timothy.rawe@thomasmore.edu.

Please look for the updated Planned Giving website coming later this fall at www.thomasmore.edu.

Learn more about Mike Burns at thomasmore.edu/thefund.

Faces of The Fund

The recently launched "Faces of The Fund" campaign puts a face to the reason why The Fund for Thomas More College is so important. Faces of The Fund offers the students' perspectives of what The Fund does and how it has made a difference in the lives of others, and also gives alumni and friends of Thomas More College an example of how their contributions play an important role in the lives of students currently enrolled at TMC.

Faces of The Fund is an ongoing video project that includes several student perspectives, including that of Mike Burns, a

senior majoring in biology. To learn more about Mike and other TMC students, visit thomasmore.edu/thefund or with a smartphone scan the code to the left.

Alumni Profile

When Adversity Equals Opportunity

How Bob Linz '75 Rode Out the Recession and Embraced New Possibilities

By stacy smith rogers, director of communications δ pr

When the going gets tough, the tough get going. For resilient folks like 1975 TMC alumnus Bob Linz (psychology) "going" evolved into a year-long cycling journey across the country. On Memorial Day, 2011, he set out on his bike with the goal of logging 50-60 miles a day until he came full circle one year later, with his goal accomplished and the experience of a lifetime fueling his passion for embracing whatever possibilities come his way.

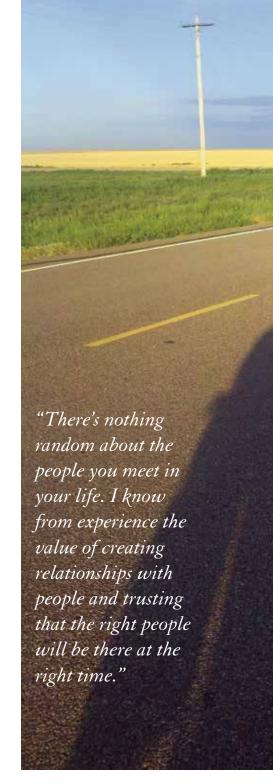

Bob's goal was born out of his willingness to see adversity as an opportunity. He is an experienced carpenter/general contractor and Realtor who, like many of his counterparts, was affected by the economic downturn and the toll it took on the housing market. Last year, Bob's resourcefulness led him to pursue generating additional revenue by leasing out rooms in his home to a couple who was in the process of moving to Cincinnati from Dayton. Shortly after moving in, they offered to rent his entire house for a year. Bob reflected on the possibility, took them up on their offer and decided to literally "ride out the recession."

He purchased a bike, began researching the Adventure Cycling Association's cross-country routes and made plans for a year-long cycling trek across the United States. Bob began his journey with two of his daughters, Jess and Marissa, riding by his side for the first 16 miles, bidding him a safe journey on the bridge over the Little Miami River in Milford, Ohio. Midway through his trip, he met up with his other daughter, Christa, who attends the University of Oregon.

Bob's travels introduced him to many strangers-turned-friends. "It's not every day you encounter someone on a bicycle with a year-long mission to ride across the country and back. People were curious about me and my story," he explained. Bob encountered plenty of remote areas and interesting people from small towns all over the United States, many of whom welcomed him more like an old friend than a stranger. He was offered a spot to pitch his tent, and was served Gatorade and home grown fruit after a short conversation with a homeowner on his front lawn in Indiana. On the night of winter solstice, he was invited by a family from Alpine, Texas to stay a few days and join them for Christmas dinner at their home.

Bob said he was not surprised that he was welcomed to set up camp in numerous backyards across the United States, and he didn't miss his bed as much as he thought he would. "I really did well sleeping on the ground. You really have a chance to get in tune with Mother Nature, sunrises and sunsets, the stars and the moon." He credits his upbringing for developing a respect for and a love of nature. "My mother, who died last year at the age of 90, gave me a gift for appreciating nature early on in my childhood. I think I drew from those early experiences during my journey. When cycling, you travel slowly thru the landscape. You see it more intimately, you feel it on your face, you can actually savor the smell and taste of it as you meander down its country roads. It's a multi-sensory experience."

Fourteen years ago, Bob's marriage fell apart and he began to look at how he needed

to change. "I found myself turning to some of the things I learned as a student at Thomas More. Gradually, I began asking myself, 'how can I serve others?' I came to understand that leading a spiritual life and serving others are what's important."

Bob's personal growth evolved into a deeper understanding of how valuable simply connecting with other people really is. "There's nothing random about the people you meet in your life. I know from experience the value of creating relationships with people and trusting that the right people will be there at the right time."

How Did Bob Accomplish His Goal?

Bob with daughters Jess and Marissa.

Bob knew he had approximately 260 cycling days to make his way around the country. He plotted his journey carefully, keeping in mind any potential complications with weather. He cycled approximately 50-60 miles each of those days to accomplish his goal, with plenty of spiritual reflection and help and guidance from people he met along his way.

His cross-country journey allowed Bob to connect with and listen to many people along the way, helping as he could during his trek. "There were times when I would get a flat tire or something would slow me down just long enough to be in the right place at the right time to meet people who I needed to meet. They would often be the ones who offered me a place to stay or pointed me in the right direction. And, sometimes, I would be the one to help them."

Bob installed a fence row for one woman in Wyoming and spent time with a homeless man in California who needed food and a listening ear. "I tried to look at each person and each opportunity as a gift and realize that I had been given this person at this particular moment for a reason," Bob explained.

Bob ended his journey as he started it. Shortly after Memorial Day of this year, Jess and Marissa met up with him at the bridge over the Little Miami River and rode the final 16 miles home with him. "I intentionally left home on Memorial Day to honor all those who gave their lives, providing me with the freedom to actualize my journey around this country. They epitomized living lives in service to all."

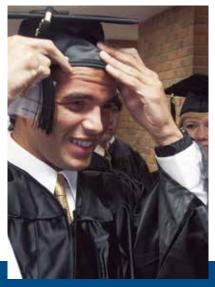

What's Bob doing now (besides resting his legs)?

In addition to getting settled back into his home, he recently helped his tenants find and purchase a home of their own. His plans are to work three days a week with his remodeling and real estate clients and to devote the other two work days to authoring two books about his experience. *Riding Out the Recession* will serve as a pictorial chronicle of his journey with commentary on events, experiences and the global economy. Fellow TMC classmate and soccer player Steve Oberjohn '75 (biology), is assisting Bob with putting that book together. The other book, *Godspeed: A Shared Perspective*, will address the spiritual nature of his trek around the country.

What began as a crisis in Bob's life evolved into a possibility for him to connect, not only with people from across the country, but also with visitors from all over the world. "It was interesting talking to people about the global economic crisis, healthcare and other issues that affect us all. If it hadn't been for the adversity I faced with the recession, I would have never had the opportunity to do this."

84^{+H} C⊡MMENCEMEN+ CEREM⊡NY ₱ MΔY 12, 2012

GRADUATION 2012 THOMAS MORE COLLEGE

he accomplishments of 362 graduates were honored by Thomas More College at the 84th Commencement Ceremony held May 12. The Class of 2012 shared the day with family and friends who applauded their hard work and accomplishments.

Prior to the ceremony, a Baccalaureate Mass was celebrated at St. Mary's Cathedral Basilica of the Assumption in Covington, Ky.

Kit Andrews, news anchor for Local 12 WKRC-TV in Cincinnati, delivered the commencement address. Andrews' 31-year career with Local 12 includes an extensive background in reporting valuable news and feature stories to audiences in Greater Cincinnati. She shared some of her experiences and advice with the graduates in the Connor Convocation Center.

"If you want to love your life, choose what you love to do. Use the tools at your disposal and don't be afraid to turn to people who can offer you a hand," Andrews advised graduates. She described her career and the path that led her to Cincinnati from Seattle and explained how faith has played a role in her

life. She and her husband, Mike, lost a son to a heart defect only five days after his birth. Andrews described the pain she experienced and how her role as a reporter allowed her to witness how other individuals coped with crisis. "Faith can see you through your challenges. I eventually decided that no matter what befalls me, that I have the ability to make the best of a challenging situation," she explained. She further encouraged graduates not to be afraid to embrace new opportunities. "Anyone who is truly productive has failed," she said.

An honorary doctorate degree was awarded to Manager of Community Relations of Toyota Motor Engineering and Manufacturing in North America Helen M. Carroll, who commented on the role that Thomas More College plays in the region and the recent impact that the Biology Field Station is making in the lives of high school students through its S.T.E.M. (science, technology, engineering and math) initiatives.

Other individuals receiving special recognition included

Alumni Profile

The TMC Connection -

Alumni Working Together for a Common Cause

Many TMC alumni maintain their connection to fellow almuni for many years after they graduate. In fact, some of them end up going into business together. Others get married, and some (as you will read below) are brought together to help others ...

By Stacy smith rogers, director of communications δ Pr

TMC Alumni Come Together to Aid Tornado Victims

on March 2, 2012, nine separate tornadoes swept through southeastern Indiana, Northern Kentucky and southwestern Ohio with winds raging up to 160 mph. Some of the hardest hit areas in Northern Kentucky were Crittenden and southern Kenton County. For Gary Holland '93 (accounting), the storms hit close to home. Gary owns several Skyline and LaRosa's restaurants in Northern Kentucky, including the Skyline in Dry Ridge, Ky., where an employee lost her entire home to the tornado. One of the drivers for his LaRosa's restaurant in Independence, Ky., was delivering pizzas during the storm and captured a photo of the funnel cloud on his cell phone and sent it to him. Gary immediately began organizing fundraisers to assist with relief efforts for the victims and affected communities.

The Red Cross set up a shelter at Piner Baptist Church in Morning View, Ky., where Gary delivered the money he raised for relief efforts. He met with officials there, who graciously accepted the monetary gift, but to his surprise, the main problem they were facing wasn't money, but how they were going to be able to wash all the donated clothes that kept coming in. Gary jokingly recalled his experience, "Here, I was thinking they would be overwhelmed with

the amount of money we raised to help with the relief efforts, and the next thing they asked me was if I knew anyone who could wash clothes."

Gary remembered that Deb Bolte Collins '94 (accounting), a

Cell phone picture taken by an employee of LaRosa's as a tornado touches down in Kenton County.

fellow TMC graduate and friend, was part owner of a local hotel chain and possibly could help. "I called her up and said, 'Deb, I need a favor. I'm from Independence. The area affected is basically my home town, and I need to help these people."

Deb, who owns a local accounting firm in Crescent Springs, Ky., was in the height of tax season, but took Gary's request with enthusiasm. She then called Gayle (Schroth) Helmer '74 (elementary education) and Dennis Helmer '73 (accounting) who are co-owners of The Hampton Inn & Suites in Wilder, Ky., along with several other TMC alumni who are partners in Wilder Hospitality, LLC. Gayle serves as manager of the hotel, and immediately agreed to the request. "I knew right away that we were absolutely going to do it. There was no hesitation," Gayle recalled.

When the truck of clothes arrived, employees and volunteers began a "bucket brigade" to get the washing process started. Quickly, The Hampton's meeting room was transformed into the "sorting clothes room," where staff sorted the cleaned clothes into categories. Although it was her day off, Gayle decided to stop by

The connection of being TMC alumni provided Deb Bolte Collins, Dennis Helmer, Gary Holland, Bob Buten and Gayle Helmer with the opportunity to provide a different kind of aid to tornado victims in Northern Kentucky.

the hotel to see how the process was going. "I ended up staying there to help until 2 a.m. the next morning. The trucks kept coming, and the washing, drying and sorting continued for three days straight," she described. Gayle said they contacted the Wilder Fire Department to ask for help in washing and drying the clothes. Eventually, the Campbell County Fire Department pitched in as well. Gayle noted that even a few guests who found out what was going on, came in and volunteered.

TMC Alumni Partnership Built on Foundation of Serving Others

In 2010, TMC alumni Andrew J. "A.J." Schaffer '96 (history/economics) and Jeff Zalla '85 (accounting/business administration) were independently looking for opportunities to buy a local company. In addition to their degrees from TMC, they shared a mutual friend in another TMC alumnus, Mark Neltner '85 (accounting), who was aware of their individual interests and suggested they connect with each other. Mark served as a catalyst for what is now a thriving partnership between the two investors who are successful co-owners of Tufco Flooring LLC in Hebron, Ky.

They purchased the business in 2011 and have worked together to foster its impressive growth within the last year. Both credit their success to hard work, relationship building, recruitment of a talented work force and shared values and convictions that enable employees to be successful. "Jeff has an easy ability to build trusting relationships with loyal clients. He is very disciplined in his thought process and decision-making. Our company is well-served through his steady leadership and strategic insights," A.J. said.

Both Jeff and A.J. have accomplished significant success prior to becoming partners, and each has served as active volunteers and contributors to the Northern Kentucky community. Jeff highlighted the talents that

A.J. brings to the table and the role those play in a successful partnership, "A.J. is incredibly bright. Together, we have a common, shared vision for our company – to work with integrity, honesty, hard work and a desire to make a difference."

"In a business relationship of this nature, you have to have an absolute bond of trust. There are risks of division and failure. Whenever we've faced a difference of opinion, we've been able to objectively debate and reach a compromise," A.J. explained.

One of the shared convictions each referenced was service to others. Jeff commented on how that has played a role throughout his career and now with Tufco. "Companies do best when they keep in mind what's best for everyone – their shareholders, their clients, their employees and their community. They will be more successful if they are more aware of serving others." Jeff's previous experience as a senior vice president and chief financial officer at Chiquita overseeing social and environmental performance offered him valuable perspectives on corporate social responsibility.

Jeff and A.J. cited an example of how service to others has played a role at Tufco. Earlier this year, the company donated and installed a new floor at the Parish Kitchen in

Jeff Zalla and A.J. Schaffer co-own Tufco Flooring LLC.

Covington, Ky., where free meals are served to those in need. As the project progressed, they found out that two of their employees had benefitted from the Parish Kitchen at one point in their lives, and through their roles at Tufco, they were able to give back to an organization that once helped them.

Both partners noted that the foundation of their success, individually and as partners, was built using the advice they each received from fellow TMC alumni. "There is no end to the TMC markers in my life," A.J. added.

When Gary, Dennis, Gayle and Deb gathered together to discuss their experience, they invited Bob Buten '73 (biology), whom they referred to as "Bob the Builder," to join in the conversation since he was an instrumental part of building the hotel. Dennis noted the long list of TMC partners who chose to go into business together because of their TMC connections. "We went to TMC at a unique time in history. A lot of our business partners have TMC contacts and many of them are graduates," he said.

Each of them described their time at Thomas More College as instrumental to their success. Prior to becoming an entrepreneur, Gary worked for DBL Law, where fellow TMC alumni have built a successful business. "The connections I made at Thomas More have made all the difference in my career. I feel grateful for my experience at Thomas More and the connections I've made. I've talked to

buddies who attended bigger schools and none of them seem to stay connected to their classmates like I have," he said.

Deb also cited reasons how TMC ties have helped her career. "TMC is full of lots of good people, and many here in the community respect a Thomas More degree. There are four people whom I credit for Mounds of donated clothing pile up as the "bucket brigade" gets to work washing, drying and sorting, before sending the clothes to tornado victims.

helping me launch my career and each one of them went to TMC."

With just a few phone calls, hundreds of loads of clothes were washed and delivered to people who were in need during a critical life-changing circumstance. The power of the TMC connection continues to thrive well beyond graduation, making a true impact on alumni as they re-connect through business and service to others.

The Reverend James Ryan

Monsignor Thomas Sacksteder

Faculty Profile

15 MINUTES WITH DR. RAYMOND G. HEBERT

Q: How many years have you been at Thomas More College?

A: I have just completed my 37th year full-time, during which I have been department chairperson for a total of I3 years in two terms; vice president of academic affairs and dean of the College for I4 years and director of the lames Graham Brown Honors Program for I0 years – all while teaching in the Department of History, International Studies and Political Science.

Q: What do you want students to take away from your class?

A: My hope is that students will appreciate the value of history as a linchpin field in the liberal arts, and that, as a discipline, it is much more than just dates and names, but rather is an opportunity to appreciate the importance of studying the past to better understand the present. I also want them to improve their skills of writing well, thinking critically and defending a position based on solid research.

Q: Where are your degrees from?

A: My B.A. is from St. Anselm College; my M.A. is from Duquesne University; and my Ph.D. is from the University of Maryland.

Q: What have you always wanted to do but haven't had the chance to do yet?

A: I have just been to my 50th state, so now I would like to visit the parts of Europe that I missed on previous trips, such as Southern France, Florence and Venice in Italy and the Scandinavian countries.

Q: Where was your last vacation and why did you choose that destination?

A: My wife Maureen and I spent two weeks in Hawaii (Kuai and Oahu) for a number of reasons, including the

A: That I played college basketball at St. Anselm and minor league baseball in New England and have been named to the Sports Hall of Fame (2000) in my hometown of Rochester, N.H.

Q: Who has been your role model and why?

A: My role model during my academic career has been Dr. Henry Winkler, the former president of the University of Cincinnati and a much revered European historian.

Q: What are your hobbies – what do you do when you are not teaching at TMC?

A: Our greatest joy as a couple is spending time with our grandchildren, but I also enjoy playing golf and tennis and attending the Cincinnati area's fine theatre productions.

Q: What has teaching at TMC taught you?

A: I now believe more than ever that a Catholic liberal arts education can have a major impact on students' lives. TMC exemplifies the best aspects of that structure with its focus on caring about each individual student "within a context of ethical concern and social responsibility."

Q: What song or artist do you like to listen to when you need to get motivated?

A: I enjoy listening to Irish music (like The Chieftains or Phil Coulter) and The Beatles to bring back old memories, but the song that motivates me is "I Left My Heart in San Francisco" by Tony Bennett because Maureen and I were engaged on a beach in the Bay area many years ago.

Q: What book is on your nightstand or is your favorite book?

A: The book I just finished is *A Dublin Student Doctor* by Patrick Taylor, the latest in his trilogy about life in rural Ireland: This is all part of my fascination with Irish history and the Irish culture. On a broader basis, I have always enjoyed the narrative histories written by Barbara Tuchman, such as *A Distant Mirror: The Calamitous Fourteenth Century*.

Q: As a child what did you want to do when you grew up?

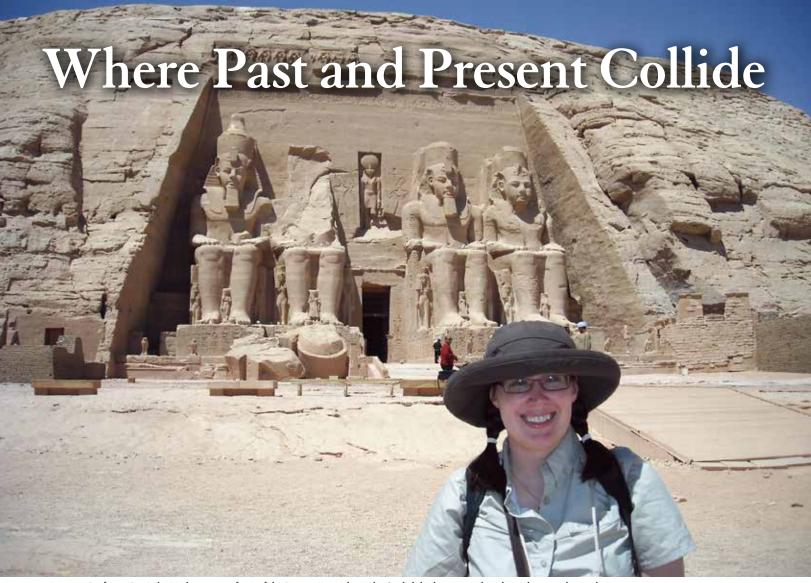

A: Sports (especially baseball and basketball), were a major part of my youth and I coached elementary school teams while in high school. So, my first aspiration was to teach high school Social Studies and coach both sports until I discovered my love of history and pursued an MA and PhD instead so I could teach at a college like the one I had attended. TMC has helped me to fulfill that dream.

Q: What particular challenge in life have you learned from and can share?

A: I have always believed that the greatest challenge in life is that of being a successful parent, of preparing a child or children for lives of their own. Today's youth have so many temptations and hurdles to face, and as parents we must be there to guide them. We need to know when to be firm, but also when to allow our children to learn from their own mistakes. We need to give them the values needed to succeed and then the wings that allow them to venture out on their own.

Ray Hebert, Ph.D.

Traveling to Egypt in a Post Arab Spring World

Submitted by Assistant Professor Dr. |Odie N. Mader '98

The times I have lectured on Ancient Egypt? Innumerable. The times I have been to Egypt? Zero. So is the life of a world history professor; one can often know many aspects of world civilizations but have never truly experienced all of them firsthand. This predicament changed in March 2012 when I traveled with my father Dan Mader '71 and a tour group to Egypt for a week and a half. I traveled to four Egyptian cities: Cairo, Luxor, Aswan and Abu Simbel. I not only saw the sites, but learned new information on these areas from our invaluable tour guide, Mohamed Hamdy.

The first thing I learned upon landing in Cairo is the quick immersion into their culture; noticing the temperature (which

was quite cool for that time of year), feeling the sand, fending off the vendors, desiring some Egyptian food and resisting the constant demands for baksheesh (tips/ donations). Second, one cannot quite help but see a country coming into a new political identity. Egypt is currently in a postrevolutionary period awaiting the election of a new president after the ousting of Hosni Mubarak. In Cairo, I was able to pick the mind of my tour guide, Hamdy, as well as the local people, to gather their views of the situation. Most Egyptians I spoke with believe the revolution of last year was a good thing, but hope true change will help the country progress economically and socially. The beacon of that change, many believe, will be in the election of a new leader.

Along with learning about the culture of Egypt, we visited major tourist attractions. Our group went to Giza, site of the famous, awe-inspiring Great Pyramid (Pyramid of Khufu). I was amazed at the height of the pyramid and the depth of it inside.

(I actually crawled down into it to see the burial chamber). Simply put, the Egyptians were engineering marvels, having built these tombs with such amazing precision, depth, and skill.

The most memorable temple for me was the Temple of Hathor at Dendara, where the only intact relief of Queen Cleopatra VII exists. (The only other visual images of her are on coins.) Cleopatra, of the Ptolemaic dynasty, was the last pharaoh to rule Egypt before the rise of the Romans. After her death, Emperor Augustus worked to quickly erase her memory and her political contributions. In the southern exterior wall at Dendara, I saw the only wall relief showing Cleopatra VII and her son Caesarian (son of Julius Caesar), making an offering to Hathor and other deities. What a find!

Flying further south past Aswan, we made our way to Abu Simbel. Pharaoh Ramses II built this temple into the side of a massive rock to face and intimidate his neighbors to the south, the Nubians. Four

colossal 20-meter statues of Ramses II face the south and the inside includes a relief commemorating the Battle of Kadesh between Egypt and the Hittites. Interestingly, the reliefs on the wall incorrectly retell the story of the battle, but such misinformation was no concern of the powerful pharaoh. Next to the temple was another that was built and dedicated to his favorite wife, Nefertari. This temple is unusual, as few pharaohs ever build a temple just for one wife.

What a remarkable trip! I have many memories that I will cherish, but I also have much new information to include in my courses. In my world civilizations courses, I will be adding new information regarding the engineering, artistry and social context of the ancient Egyptians. I also plan to enhance my work on gender in the ancient world, especially with Cleopatra.

This international trip, along with others I have made to Europe, enhances my work as a world history professor. I want to convey the message to my students that traveling and understanding foreign cultures is essential to being a citizen of this world. My goal is to inspire students to learn about the past, but also travel to it and experience it firsthand. I truly believe in the adage that one must explore who one is in order to realize how one fits into the world at large.

ACCOLADES, PRESENTATIONS & PUBLISHED WORKS

Dr. Florence Dwyer, assistant professor, foreign languages, presented a paper entitled: "Oser l'impossible ou comment Dieu s'invite sur la scène théâtrale contemporaine. Etude de la dimension philosophique dans l'œuvre théâtrale d'Eric-Emmanuel Schmitt: Le Visiteur" at the The Louisville Conference on Literature & Culture since 1900.

Dr. Raymond G. Hebert, professor, history and dean of the college emeritus, has just completed his 37th year full time at Thomas More College. He was honored as the outstanding full-time faculty member of the year, for the second time, during the 2012 commencement ceremony. During June he served as consultant to conduct an evaluation of the Clarence T.C. Chung PUEO Program, and the role played by its lead administration at the Punahou School in Honolulu, Hawaii. The program is designed to put college within reach for selected public school students through this unique Punahou Partnership Program. The primary goal of the program is to identify and help students from neighboring public schools "with high academic potential and low economic opportunity."

Dr. Lawrence E. Boehm, professor and chair, psychology, presented research titled "Positive Emotion Mediates the Mindfulness-Life Satisfaction Relationship" at the 24th Annual Convention of the Association for Psychological Science in Chicago. He also moderated presentations at the 3lst Annual Mid-America Undergraduate Psychology Research Conference.

Dr. R. Steven Flynn, professor and chair, accountancy, published his paper titled "Friend or Foe? Individual Donor Reaction to Form 990's New Governance Disclosures," in *The Journal of Academy of Business and Economics*, Vol. II (3), 2011.

Dr. Sherry Cook Stanforth, professor, English, as part of an educational outreach committee project, developed a TMC Adventure in the Humanities program that allowed local K-I2 students to experience interactive sessions in humanities-based disciplines. The program engages students in creative contemplation about the content of literature, creative writing, history, political science, foreign language, art, music, theater, communications and philosophy. For the SP 2012 school year, Dr. Stanforth worked with Turkeyfoot Middle School teacher Miki Beier to bring in 33 accelerated language arts students to experience adventures in creative writing, French language/culture and acting. Ms. Alana J. Ghent, assistant professor, theatre, and Dr. Florence Dwyer,

assistant professor, foreign languages, joined Dr. Stanforth in this first Adventure in the Humanities program which took place on March 28, 2012 at TMC. Dr. Stanforth also submitted two poems, which were accepted for publication: "Crop Circle" published in *New South 5.1*, Spring 2012, and "This Time" published in *Pine Mountain Sand and Gravel—The Mountains Have Come Closer*, Volume 15. March, 2012.

Dr. John V. Cimprich '71, professor and chair, history, served as the national representative of Phi Alpha Theta History Honor Society at the installation of a chapter at Bellarmine University at Louisville on March 15, 2012.

Dr. Rex B. Easley, professor, English, submitted two poems, "Laid Off" and "Construction Poem #3," which appeared in the most recent issue of Blue Collar Review, a national literary journal published in Norfolk, Va. Dr. Easley also gave a public reading of original fiction at the Kentucky Philological Association conference at Morehead State in March 2012.

Alana J. Ghent, assistant professor, theatre, took the stage at the Emery Theatre in May 2012, playing the role of Debra Selman in the premiere production of "Waddie Welcome." It was the first theatre performance on the restored stage in Over-the-Rhine. The piece was a collaboration with Starfire, a community group that "enables individuals with disabilities to become active and vital members of the community."

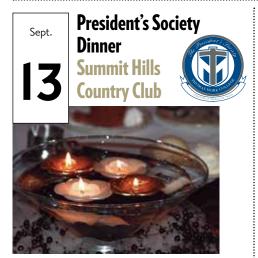

Dr. | ack D. Rudnick | r., associate professor, business administration/program manager, health care management, was selected to present two peer-reviewed posters at sessions for the Kentucky Innovators Conference, Hebron, Ky. (Now There's an App for That: Elder Abuse and Neglect-iResearch to iPractice) and the annual meeting of the Association of University Programs in Health Administration (AUPHA), Minneapolis, Minn. (Just Add Water to Vitalize Critical Thinking: A Formula Based on Fieldwork and Hinterland Research from an Overseas Healthcare Management Teaching Experience). He has also been appointed as a member of the AUPHA's Medical Group Practice Forum and Global Health Care Management Forum to further cultivate domestic and international research and teaching resources for member faculty. He was recently honored as the Greater Cincinnati/Campbell County YMCA Volunteer of the Year for coordination and founding efforts of a collaborative community health fair initiative and was named an Outstanding Educator for 2012 by Cincy Magazine.

TMC Alumni Calendar of Events

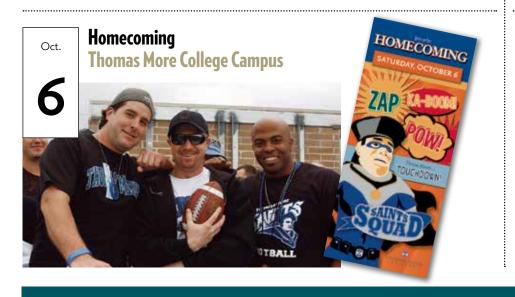

Join the Crowds!

Alumni events are a great way to reconnect, network and socialize, so mark your calendars to join us at these events this year!

Stay Connected with TMC — Update Your Records!

Has your contact information changed? Did you get married? Do you have a new job? Have you moved? To ensure you keep receiving important information from TMC, please update your contact records with the College by going online at

thomasmore.edu/alumni and complete the

alumni update form. For more information, contact Monica Ginney at 859-344-3346 or email alumni@thomasmore.edu.

Alumni Gatherings

The Class of 1962 celebrated its 50th anniversary during Commencement Weekend on May II and I2. A reception on campus the evening before was enjoyed with many alumni returning for the commencement luncheon, ceremony and reception the following day. More than 50 classmates and spouses attended the celebrations.

Wine Tasting

More than 165 alumni, friends and family gathered to try out several domestic and international selections of Pinot Noir and Pinot Bianco, at the 4th Annual Wine Tasting held April 27, 2012. Hors d'oeuvres and a restaurant prize drawing rounded out the evening of sipping and mingling.

Florence Freedom

Always a popular event, TMC night with the Florence Freedom drew over 500 attendees to the game on a cool, but dry, June 1st, as the home team chalked up a win.

RIGHT: Dawna Neil '09 and Nora Heinz show off their trophy, after Heinz snagged a foul ball down the right field line in the 8th inning.

BELOW: The chill in the air couldn't keep TMC alumni, friends and family away from dinner and a ball game on a Friday night with the Freedom.

Class Notes

1950s

Nancy (Black) Kuchle '56 recently attended the graduation of her granddaughter, Madison, in Morton, Ill.

1960s

Mary Evelyn Klingenberg '67 recently retired after 45 years of teaching math at Saint Henry District High School in Erlanger, Ky.

1980s

Dr. Patrick J. Ginney '82 is currently serving as president of the Kentucky Podiatric Medical
Association, appointed in March 20II.

Christopher J. Perrino'84 was inducted into the Association for Accounting Marketing Hall of Fame on June II, 2012 in recognition of his I4 years

of career achievements with Barnes Dennig in Cincinnati.

Jeff Maren '89 was named the new head coach of the women's tennis team for Liberty University in Lynchburg, Va.

1990s

Brady Sallee '93 is the new women's basketball head coach at Ball State University

in Muncie, Ind. He also attended the Center for Coaching Excellence leadership program in May, which invited only 29 Division I head coaches to participate.

Jeffrey Nicholas '93 released a book from the University of Notre Dame Press entitled *Reason*, *Tradition and the Good...* in June. He will speak at four conferences in England during summer 2012, after which he will resume his teaching career in philosophy at Providence College in Rhode Island.

Adam M. Davey '97 was one of Cincinnati Business Courier's "Forty Under 40" winners in 2011.

Carl Michael
"Mike" Webster
'97 was recently
promoted to senior
vice president, research
solutions at Burke,
Inc. in recognition of
his contributions to

the development of Burke's online data and reporting capabilities.

Norma Gerhardstein '99 married Eric Walsh on May 26, 2012. The couple resides in West Chester, Ohio.

We love to include visuals as part of Class Notes. For maximum quality in print, follow these tips and send us your clean, clear, sharp images:

Digital: Send high resolution files (minimum of 300 pixels per inch or 300dpi) in JPEG or TIFF formats. Include in an email message with your class note to alumni@thomasmore.edu.

Photographic prints: Minimum size is 2"x3" (wallet size) for headshots and 4"x6" for group shots. Mail to the Office of Alumni Relations, Thomas More College, 333 Thomas More Parkway, Crestview Hills, KY 41017.

SURVEY SAYS:

The 2012 Alumni Survey needs YOUR input – The Thomas More College Alumni Association requests your feedback in a short 5-10-minute online survey. Your feedback will help determine our programming for the future. Please visit thomasmore.edu/alumni before August 17.

2000s

Michelle L. "Shelly" Koch '02 moved back to the Cincinnati area after three years in Cleveland working for the Department of Defense. She obtained her CPA license and is now employed by the Alcohol and Tobacco Tax and Trade Bureau as an excise tax auditor.

Ken Strunk '04 was promoted to vice president, data collection services at Burke, Inc. which values him as a highly regarded data expert both inside the company and in the research community.

Allison (Byars) Pieczonka '10 and Nick Pieczonka '05 welcomed their first son, Austin, on March 20 – the same day that classmate and Allison's TMC women's basketball teammate, Carrie (Clift) Busby '05, and Brandon Busby '05 gave birth to their first son, Thomas Howard.

Natalia Jones '08 was recently hired as TriCommB2B's client service executive. This position combines her experience in customer service, language communications and marketing.

2010s

Emmy Kaiser 'II achieved her long-time goal, being named to the 2012 U.S. Paralympic Wheelchair Tennis Team for the London games. She is the highest-ranked American women's wheelchair tennis player in both singles and doubles, and one of two American women competing in both singles and doubles matches for the U.S. team in early September.

Alyssa Lowry 'II and **Richard Spoor 'II** were married on June 9, 2012.

Cynthia Neumann 'II was recently hired by Starrag in Hebron, Ky. and will be working in an accounting role before transitioning into a position in their human resources department.

Samuel Brown '12 recently accepted the position of staff

accountant at Rudler & Associates in Ft. Wright, Ky., where he previously interned as a student.

Aaron Thompson '12 recently became engaged to **Christy Nageleisen '00**.

"Eternal rest grant unto them, O Lord, and let perpetual light shine upon them. May they rest in peace. Amen."

Miriam Ruth Bolte '73, June II, 2012

Joseph G. Braun '53, June 4, 2012

Jack B. Broxterman '64, April 15, 2012

Barbara (Lamarre) Goff '59, June 18, 2012

Thelma M. Hanneken '48, June 4, 2012

Margaret Juengling '68, May 4, 2012

Joseph Riedmatter '63, April 28, 2012

Jo Ann Schneider '56, June I, 2011

The section of Ky. 842 (Weaver Road) between U.S. 42 and U.S. 25 will be "The Lance Cpl. Adam Peak Memorial Highway," in honor of Adam Peak '06, a native of Florence, Ky. who died in the line of duty on Feb. 21, 2010, in Helmand, Afghanistan. At the time of his death, Peak was serving with the 2nd Battalion, 2nd Marine Division, II Marine Expeditionary Force.

Saints Sidelines

The Saints continued to embrace possibilities to succeed and demonstrate the high level of commitment that TMC's student athletes bring to the classroom and onto the courts and fields. To learn more about up-to-date announcements and achievements, visit thomasmore.edu/athletics.

Spring Teams Embrace Success

SUBMITTED BY CORY BLACKSON, TMC SPORTS INFORMATION DIRECTOR

■ TRACK & FIELD

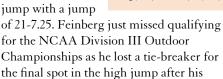

Inaugural Season Proves Successful

Head Coach Jeff Hill guided the Saints' track & field teams to a successful inaugural season in 2012. The women's team finished sixth and the men's team finished eighth at the 2012 Presidents' Athletic Conference (PAC) Championships.

The women's side had six All-PAC performances at the PAC Championships as senior Alexa Hlebiczki (Newport, Ky./ Newport Central Catholic) was All-PAC in the long jump and triple jump, freshman Kaylin Veeneman (West Harrison, Ind./ Franklin County) was All-PAC in the long jump and high jump, sophomore Andrea Robben (Harrison, Ohio/Harrison) was All-PAC in the pole vault and freshman Felicity Britt (Alexandria, Ky./Bishop Brossart) was All-PAC in the shot put. Hlebiczki was the PAC champion in the long jump with a mark of 16-8.0.

On the men's side, junior Phil Feinberg

(Tempe, Ariz./
Corona Del
Sol) was a two
event All-PAC
performer as
he was the
conference
champion in
the high jump
with a mark
of 6-6.0 and placed
second in the long
jump with a jump

Hill returns a majority of the 2012 squads and looks to move up in the PAC standings in 2013.

season-high jump of 6-8.75.

Senior Alexa Hlebiczki achieved All-PAC in the long jump and triple jump.

■ MEN'S GOLF

Six Top-10 Finishes Highlight Golf Season

The Thomas More men's golf team, under the direction of first-year head coach

Marty Kamer, placed in the Top-10 in six of its nine tournaments during the 2011-2012 season.

The Saints placed sixth at the Presidents' Athletic Conference

Senior Mike Pharo earned second team All-PAC honors. (PAC) Championship as the tournament was reduced to the two rounds played in the fall after the spring's two rounds were cancelled due to an April snow storm in western Pennsylvania. Senior **Mike Pharo** (Cincinnati, Ohio/Moeller) earned second team All-PAC honors as he placed 10th at the PAC Championship with a 152 (75-77).

Sophomore **Michael Marcagi** (Anderson, Ohio/Anderson) led the Saints in scoring with an 80.8 stroke average, while Pharo was second with an 80.9 stroke average.

Thomas More has four of its five players returning for the 2012-2013 season and hopes to return to the top of the PAC standings.

■ MEN'S TENNIS

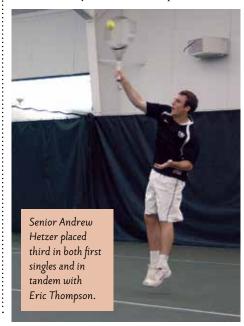

Freshman Leads Team to PAC Championship Fourth Place Finish

The men's tennis team tied its best finish at the Presidents' Athletic Conference (PAC) Championship as it finished fourth with 12 points.

Freshman Eric Thompson (Edgewood, Ky./Dixie Heights) earned first team All-PAC honors as he won the second singles flight. The Saints had two third place finishes as senior Andrew Hetzer (Cincinnati, Ohio/ Elder) placed third at first singles and the No. 1 tandem of Hetzer and Thompson placed third.

For the season, Hetzer was 10-4 and Thompson was 11-1 in singles play, while they teamed to record an 8-5 record in doubles.

The Saints return four of their six players in 2013 as they look to move up in the PAC.

MEN'S BASEBALL

Boys of Summer Achieve Seventh Straight PAC Tournament Appearance

The Thomas More College baseball team went 25-16 overall, including a 13-11 record

in the PAC, to reach its seventh straight Presidents' Athletic Conference (PAC) Tournament.

The Saints have reached the fourteam PAC tournament every season since Thomas More joined the conference during the 2005-2006 academic year.

During the season, senior first baseman **Andrew Thole** (Cincinnati, Ohio/McNicholas) set the career runs batted-in record at 178 and tied the career games played record at 164.

The Saints had two players bat over .400

as sophomore third
baseman/designated
hitter Travis Miller
(Erlanger, Ky./St.
Henry) batted .407 and

junior shortstop **David Kennett** (Grove City, Ohio/Grove City) batted .405. On the mound, the Saints were led by senior **Aaron Carmack** (Miamisburg, Ohio/Miamisburg) who had a 3.57 earned run average in 45.1 innings pitched with 24 strikeouts.

At the conclusion of the season, six Saints were named to the All-PAC teams, while Thole and Kennett were named to the American Baseball Coaches Association (ABCA) All-Mideast Region Teams and Thole was named to the internet website D3baseball.com's All-Mideast Region Team.

The Saints will return seven starting position players and 11 pitchers in 2013 when they will look to return to the NCAA Championship Tournament.

Hetzer Reaches 300th Win Plateau

Thomas More College Head Baseball Coach Jeff Hetzer, in his 12th year, earned his 300th career win (all at Thomas More) on April 24 when his Saints defeated Capital University, 11-3, in a nonconference game at Clowson Field in Columbus, Ohio.

Hetzer ended the season with a career record of 302-168-3 for a 64.2 percent winning percentage.

Hetzer, the winningest baseball coach in Thomas More history, took over the program in 2001 and guided the Saints to 12 consecutive winning seasons. He has also won 20 plus games in 11 of his 12 seasons. Since joining the Presidents' Athletic Conference (PAC) during the 2005-2006 academic year, he has led the Saints to two PAC regular season titles and

two PAC tournament titles, while never missing the four-team PAC Championship Tournament. Hetzer has also guided the Saints to three NCAA Division III Championship Tournament berths where they finished as regional finalists in 2003 and regional semi-finalists in 2010 and 2011.

Hetzer has had 46 players named All-PAC, including 19 named first team, since joining the conference in 2006. He has had two PAC Players of the Year as well as one PAC Pitcher of the Year. During his tenure, Hetzer has had 24 Saints named all-region (ABCA), one Pitcher of the Year in the region (ABCA) and five All-Americans (ABCA and D3baseball.com). Hetzer has had two post-graduate scholarship recipients, 13 all-district academic players and six Capital One Academic All-Americans.

Hetzer expects excellence both in the classroom and on the field. His teams have had a grade point average of 3.0 or better in 22 of his 24 semesters. As for baseball, his goals each season for

Hetzer

the team are to earn the No. 1 seed in the PAC Tournament, to win the PAC tournament and to be invited to the NCAA Tournament. To achieve these goals, Hetzer's teams are marked by aggressive play and excellent fundamentals. He insists that his players be in top condition and play disciplined baseball.

Saints Sidelines

■ WOMEN'S SOFTBALL

Softball Posts Fourth Straight Winning Season

Senior Brittany Wegman ends her TMC softball career as the all-time leader in runs scored, home runs and runs batted in.

The Saints' softball team achieved its fourth straight winning season during the 2012 campaign with a 23-17 overall record and a 10-8 mark in the Presidents' Athletic Conference.

Thomas More had two players bat over .300 as senior first baseman Brittany Wegman (West Harrison, Ind./East Central) batted .475 and sophomore catcher Stefaney Turner (Franklin, Ohio/Carlisle) batted .338. In the pitching circle, sophomore Ronni Burns (Dayton, Ohio/Carroll) had a 2.62 earned run average (ERA), while sophomore Sara Young (Okeana, Ohio/Mount Notre Dame) had a 3.11 ERA.

Wegman ended her Thomas More softball playing career as the all-time leader in runs scored (142), home runs (40) and runs batted-in (144).

The Saints look to recapture the PAC title next season as they return 10 letterwinners from the 2012 squad.

Bramhall Wins Career No. 100 in April

Thomas More College Softball Coach Lindsay Bramhall earned her 100th career win with a game two win over Presidents' Athletic Conference (PAC) rival

Washington & Jefferson College in a PAC doubleheader on April 7 at Thomas More Field.

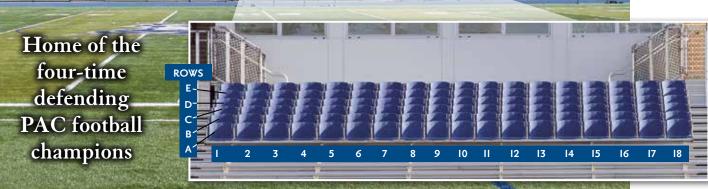

Bramhall ended the season with a career record of 107-61 for a winning percentage of 63.7 percent.

In just

four seasons in Crestview Hills, Bramhall has guided the Saints to at least a share of two Presidents' Athletic Conference (PAC) regular season titles and two PAC tournament titles, while advancing to the NCAA Division III Championship twice. She has had 18 student-athletes named All-PAC and two PAC Players of the Year, while being named PAC Coach of the Year twice. Bramhall has also had seven Saints named all-region (NFCA).

There's not a bad seat in the house, but only a select few can be spoken for before game day. Reserve your spot today and be ready to show your Saints' spirit during next year's football season. Contact Terry Connor at 859-344-3308 or terry.connor@thomasmore.edu.

What's it Like to Enjoy 15 Minutes of Fame?

Just Ask TMC Student Caleb Lloyd: The Luckiest Baseball Fan Ever

by stacy smith rogers, director of communications δ pr

or rising junior Caleb Lloyd, being at the right place at the right time means more than just luck. It means fame - at least 15 minutes of it. Prior to May 21, the TMC soccer student athlete and business/marketing major was enjoying a quiet summer, working at KFC and hanging out with friends. That Monday afternoon, he was playing video games when his friend and fellow soccer student athlete Matt Kees called to see if he wanted to go to a Reds game. The team was playing the Atlanta Braves, and, at the time, that seemed like a pretty fun thing to do. A few short hours later, Caleb was at the center of a media frenzy and soon after the game, he was deemed the "luckiest baseball fan ever."

Sitting in left field at Great
American Ball Park, Caleb caught
Reds players Mike Leake and Zack
Cozart's back-to-back home run
balls in the fourth inning. The first
ball went directly to Caleb, and three
pitches later, shortstop Zack Cozart hit
another one to the same area. The ball
bounced right to Caleb, who had one
free hand to catch it.

According to news reports, no major league baseball fan has ever caught back-to-back home run balls. Caleb returned the ball to Leake because it was the starting pitcher's first career homer, and he gave the Cozart ball to Matt because it was his connections that secured their seats.

Caleb was immediately invited to talk to Reds announcers about his unique luck. "It was pretty crazy, almost unreal I would say. It was the most shocking, painful and greatest experience in my life," he described. Caleb said it was shocking because the idea of catching two balls was so unusual. It was painful because he caught them both barehanded. And, it was the greatest experience of his life because it was so much fun sharing his excitement and responding to how exciting everyone else thought it was.

Over the course of two weeks, Caleb's story ran in nearly 600 media outlets across the world, from Alaska to Hawaii, Canada and Australia. Every major sports media outlet covered it, including ESPN, MLB.com and *The Sporting News*. Caleb said his most enjoyable interviews were with ESPN's "Mike and Mike in the Morning" and "The Dan Patrick Show."

The day after the game, Caleb balanced his work at KFC with his newfound fame and requests to be interviewed. His cell phone wasn't working, so Jeff Cummings, TMC's head soccer coach, fielded phone calls for him, while Cory Blackson, TMC's sports information director, coordinated interviews with numerous media outlets. Caleb described that day as fun, but a little overwhelming. "I'm a pretty talkative person, so it was great doing the interviews, but after a full day of them all the interviewing started to take a toll on me. I was exhausted."

On Tuesday, Caleb was invited to be the honorary team captain for the Red's game and was presented a bat inscribed, "Sorry I hurt your hand," by Mike Leake, who gave it to him near the Reds dugout. Leake was thankful that Caleb gave his home run ball back and wanted to offer him something in return. Caleb described the experience on the field as exhilarating. "I had never been on the field before, let alone standing 10 feet away from Dusty Baker and all these well-known professional athletes. They were incredibly welcoming and made me feel like I was one of them. They came up and talked to me as if it was no big deal they were celebrities who made millions of dollars."

Caleb said he learned a lot from his 15 minutes of fame, but he wouldn't want to be a full-time celebrity. "I learned that in life, you're always going to have surprises. When a once-in-a-lifetime opportunity like that comes your way, you have to take things in stride and make the most of it."

10-Minute Spiritual Break...

Keep Sr. Pat Dorobek, S.N.D., in your prayers as she begins an Italian adventure in the newly created role of justice, peace and integrity of creation coordinator for the Congregation of the Sisters of Notre Dame in Rome this summer. As a previous contributor to *Moreover*'s "10-Minute Spiritual Break," she encourages readers to make time in their schedule every day for spiritual reflection.

We pray to you, God of heaven and earth, in wonder and thanks that you reached out to us, dreaming and risking.

We pray through your Son, Jesus, who, never satisfied with what is, endured hardships the mind could not anticipate.

We pray in your Spirit, released in the world by your dream for us, who teaches us that nothing is beyond our collective reach. May your Spirit inspire us with the confidence not to bury our talents,

but to give ourselves unreservedly to the dreams that will transform our lives.*

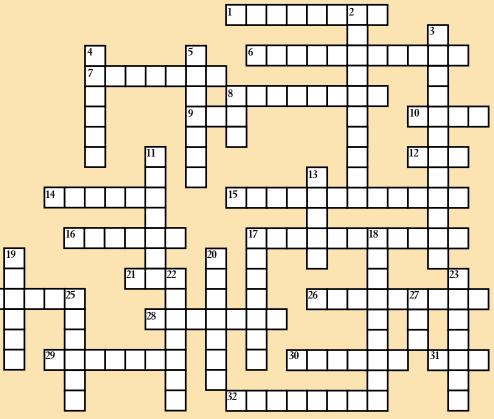

*Excerpt from Prayer for Parish Groups by Donal Harrington and Julie Kavannah Mosaic created by Professor Rudolph (Rudy) Alexander Morow who taught at TMC for 37 years.

How well do you know TMC?

Put on your thinking cap and try your hand at this crossword of trivia which includes items taken from the TMC timeline, beginning to current day. Answers will be posted in the next *Moreover*. For a sneak peek, visit thomasmore.edu/MORE.

ACROSS

- I. Monte Casino Chapel was dubbed by Ripley's Believe It or Not
- _____ church in the world."
