Executive Summary

Full-time, traditional, undergraduate enrollment is just over 1,100 for the Spring 2022 semester. We had a small jump in fall to spring persistence from last academic year having 88.3% of our traditional undergraduate students return from the fall 2021. Digital, Graduate, and Professional enrollment numbers stayed about on level with previous academic year both in headcounts and in credit hours. The Gemini program did see a boost of almost 30 additional students from the fall (higher even than the previous two springs). Overall, the data are showing a maintenance of progress that still shows well as we continue to navigate all of the changes wrought by the pandemic.

1. This table includes only traditional, full-time, undergraduate, degree-seeking students enrolled as of the mid-census date in the stated fall semester.

2. Spring Persistence at TMU is measured if the student was enrolled as of the mid-census date in the following spring semester.

3. Spring Persistence in Housing is measured if the student was enrolled as of the mid-census date in the following spring semester and still living on campus.

4. To provide the most accurate comparison, part-time students as well as graduate students were excluded from this table.

5. Spring Persistence at TMU for the University Total represents the returning traditional spring population divided by the fall population minus the fall graduates.

6. 2021-2022 Populations include the maximum capacity for each hall as of March 15, 2022. HALL NAME (beds)
